

Peristaltic Pump DULCO®flex DF4a

The optimum pump for use in swimming pools, hot tubs and spa and wellness facilities.

Capacity range 1.5 – 12 l/h, 4 – 2 bar

There are three designs of DULCO®flex DF4a available.

- Metering chemicals
- Metering activated charcoal

- Metering flocculants

This guarantees that the operating menu, inputs and outputs are always adapted to the respective application.

Your benefits

- Language-neutral user navigation
- Continuous adjustment of capacity
- Hose material in PharMed®
- Full control, as the capacity is shown in l/h in the display

- Safe and reliable operation: Flow volume and concentration can be entered reproducibly
- Long service life: Spring-loaded rollers stabilise rolling pressure and reduce wear and tear on the hose

Field of application

Swimming pool water treatment

Peristaltic Pump DULCO[®]flex DF4a

The optimum pump for use in swimming pools, hot tubs and spa and wellness facilities.
